Re: Bill 83 (2007) – Relating to Recycling at City Facilities

Chair Okino and members of the City Council:

We the undersigned strongly support Bill 83. As concerned citizens of O'ahu we would like to see the city implement this bill that will reduce the amount of trash going to our landfill and show visitors that we care about our island and our impact on the environment. Visitors from Japan and other areas, where recycling is second nature, find it strange that we do not provide ways to recycle in public places. We are behind most states in our recycling efforts and this bill would help move us forward and remove thousands of cans and bottles from our already full landfill.

We request that you add Bill 83 on the calendar for hearing in January.

Mahalo for your consideration,
